(503) 224-1330

**Emotional Intelligence – our personal and social competencies often provide the most critical difference between success and failure in life and on the job.**

Fortunately, emotional intelligence can be developed (even late in life). However, it only happens through awareness, study, practice and feedback.

This need for accurate self-awareness and relevant feedback is the reason the **KRH-EIQ** online survey was created.

### **Summary reports include:**

- Self ratings of 18 emotional intelligence competencies,
- Charts comparing your ratings to those of your supervisor, peers, and direct reports,
- Written comments from your coworkers, and
- Personal development planning guide.

**You also receive a personal consultation session to discuss how best to interpret and apply your results.**
